### Citizens Petition to the Legislature of Saskatchewan to enact Conscience Rights Protection

**Redvers CWL**—is encouraging everyone to sign the petition forms at the back of our churches calling on the provincial government to enact legislation to protect conscience rights for all medical practitioners.

The coercion, intimidation, or other forms of pressure intended to force physicians and healthcare workers and institutions to become parties in medical assistance in dying (MAiD) directly or through effective referral is a violation of fundamental freedoms of conscience. The protection for medical professionals is necessary for patients to know they are receiving the best care possible. While provincial governments and medical associations were obligated to implement MAiD following its de-criminalization by the Federal Liberal Government, provincial legislatures can create a legal framework (as the legislature of Manitoba has done) to protect the conscience rights of medical professionals who refuse to participate in MAiD as well as prevent professional regulatory bodies from requiring their members to participate in it. **Please Note:** There is no minimum age requirement for anyone signing the petition.

ASH  
WEDNESDAY

Remember that  
You are dust, and to  
dust You shall return.
